

Special Permission Press Release

Dear Parent/Guardian of _____

Your student participated in our Tour of College of Coastal Georgia, sponsored by High School High Tech. We would like to celebrate your student's participation in these activities with an article in the local newspaper. While we will not state in the article that your student is a student with a disability, these organizations are in place for students with 504s or IEPs, therefore it would be possible for someone to come to the conclusion that your student has either a 504 or an IEP.

I do not want to violate confidentiality or cause any discomfort/embarrassment to your student. Prior to publishing a press release, I would like to receive your permission and the student's permission to share your student's name and/or picture to celebrate their awards. I completely understand if you would like for your student's information to be anonymous. Please complete this form and return it to Kristine Hickson, so that I can accommodate your wishes.

Congratulations on a job well done!

Kristine K. Hickson

_____ I would not mind if there was a newspaper article identifying my student as participating in CTI or HSHT, which are programs for students with a 504 or IEP.

_____ I would like for you to refrain from using my student's name in your article discussing participation in the CTI or HSHT events.
